

Remark

Applicants respectfully request reconsideration of this application. Claims 30- 58 are presented for examination.

35 U.S.C. §103 Rejection*Bluetooth in view of Kammer*

The Examiner has rejected claims 30-43 and 45-55 under 35 U.S.C. §103 (a) as being unpatentable over "Specification of the Bluetooth System-Part E", ("Bluetooth Specification"), in view of Kammer, U.S. Patent No. 6,826,387 ("Kammer"). The Examiner suggests that Item 950 in Kammer shows the use of a service name without an indication of the virtual communications port number.

Item 950 is a box labeled "USE THE SERVICE NAME TO LOCATE THE LEGACY APPLICATION FOR THE CLIENT DEVICE." Paragraph 13, lines 6-14 explain that the service name obtained in the Bluetooth discovery protocol is displayed to the user. The user then browses through the applications installed on the user's device to find one with a name that corresponds to the displayed service name.

Claim 30, on the other hand recites, "sending a connection request from the first radio device to the second radio device..." This is obviously very different from a user browsing through applications as described for box 950.

Perhaps a closer analogy may be drawn to box 960. "ESTABLISH COMMUNICATION PATH TO THE LEGACY APPLICATION OVER THE VIRTUAL SERIAL PORTS." This box relates to establishing a connection. However, contrary to Claim 30, the connection is established over the virtual communication ports. There is nothing in Kammer to suggest " the connection request including the service

name to indicate the appropriate service, and not including an indication of the virtual communications port through which the service record was received." Accordingly, it must be assumed that Kammer will perform this step in the conventional manner as set forth in the Bluetooth standard.

Pursuant to the remarks above, Applicants respectfully submit that Claim 30 is not rendered obvious by the references. The remaining claims are believed to be allowable on the same or similar grounds, *inter alia*.

Conclusion

Applicants respectfully submit that the rejections have been overcome by the amendment and remark, and that the claims as amended are now in condition for allowance. Accordingly, Applicants respectfully request the rejections be withdrawn and the claims as amended be allowed.
